DETAILED ACTION

Allowable Subject Matter

1. **Claims 1-12 are allowed.**
2. The following is an examiner's statement of reasons for allowance:

Claims 1-12 are allowable because the prior art fails to disclose or make obvious, either singly or in combination, an image capture device comprising, in addition to the other recited features of the claim, "an image sensor provided on the first side of the substrate and electrically connected to the conductor pattern, a first die provided on the second side of the substrate and electrically connected to the conductor pattern, and a second die stacked on the first die and electrically connected to the conductor pattern".

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Tu et al. (Patent No. US 6,521,881) discloses a stacked structure of an image sensor.

Hsieh et al. (Patent No. US 6,680,525) discloses a stacked structure of an image sensor.
